FCS 5230 Adolescence – if not taken in the major

H EDU 3190 Death and Dying

The FCS department is currently investigating the need for a new class to cover the ACLP's requirement for a class with very specific curriculum on the topic of play. If a new class is deemed necessary it will be added to this list.

Strongly recommended by the ACLP but not required:

Human Anatomy/Physiology H EDU 4650

Medical Terminology H EDU 3030

Ethics with a focus on Medical Health Care

A Clinical Internship has always been required by the ACLP to become a CLS; it will be increasing from 480 hours to 600 hours.

More and more hospitals are now requiring a child life practicum before their internships. To see all your options for practicums and internships across the country we recommend you become a student member of the child life council so that you can access their directory. <http://www.childlife.org/Membership/>

“The Certified Child Life Specialist (CCLS) credential is the exclusive certification issued by the Association of Child Life Professionals (ACLP). The requirements for becoming certified are based on academic and clinical experiences, and successful completion of the Child Life Professional Certification Examination.”

Information taken from: www.childlife.org/certification

The FCS department at the University of Utah does **NOT** provide certification. The FCS department at the University of Utah provides the courses that are recognized by the ACLP as fulfilling their course work requirement.
